SUBJECT INDEX—Volume 16 (1991)

Volume 16, Number 1 (Jan.–Feb.), contains pages 1–64; Number 2 (March–April), 65–124; Number 3 (May–June), 125–190; Number 4 (July–Aug.), 191–246; Number 5 (Sept.–Oct.), 247–302, and Number 6 (Nov.–Dec.), 303–357.

Abscess, epidural, early diagnosis of, 57
Abstracts, structured, 341
American Society of Regional Anesthesia Annual Meeting, abstracts from, January-February 1991 Supplement
Ampules, ephedrine and atropine, similarity of (letter), 189
Arm
  myoclonus of, after ipsilateral stellate ganglion block (letter), 186
  tourniquet pain in, 314
Arrhythmias, drug-induced. *See* Cardiotoxicity
Atkinson retrobulbar needle, 23-gauge, for brachial plexus block (letter), 119

Back pain
  after chloroprocaine epidural anesthesia, 199
  epidural steroid injections for (letter), 246
Bard ambulatory PCA pump, safety design fault in (letter), 116
Biomedical manuscripts
  structured abstracts for, 341
  uniform requirements for, 181
Bleeding, surgical, ropivacaine vs. bupivacaine effects on, 268
Bleeding times, training anesthesia personnel to perform, 161
Blood pressure, as marker of intravascular epinephrine injection, in epidural test dose, 292
Brachial plexus block
  half ring injection for (letter), 63
  23-gauge Atkinson retrobulbar needle for (letter), 119
Bradycardia. *See also* Cardiotoxicity
  during spinal anesthesia, 101
Breast surgery, minor, intercostal nerve block for, 23
Bupivacaine
  with calcium entry blockers, cardiovascular effects of, 95
  for cesarean delivery
    infused volume and spread of, 130
    subarachnoid morphine with, 137
  in continuous lumbar plexus block, vs. epidural morphine, for analgesia after open knee surgery, 34
  continuous spinal anesthesia with, dose-response analysis of, 52
  epidural
    epinephrine effects on, 303
    with intravenous vs. epidural sufentanil, ventilatory function after, 65
    low-dose thoracic, hemodynamic effects of, 318
    with subarachnoid lidocaine, sensory thresholds and, 262
  intermittent bolus, vs. continuous infusion chloroprocaine, for cesarean delivery, 154
  interpleural
    distribution of, 43
    vs. epinephrine, hemodynamic and ventilatory effects of, 257
  onset time of, with and without fentanyl, 228
  vs. ropivacaine, vascular effects of, 268
  in spinal anesthesia, failure of, incidence and causes of, 48
  subarachnoid spread of
    factors affecting, 1
    vertebral column height and, 17
  toxicity of
    digoxin enhancement of, 272
    drug interactions and (letter), 116
    with and without lidocaine, in piglets, 89
    rodent model for, 223
    treatment of (letter), 120
  ventilatory effects of, 7
Buprenorphine, epidural obstetric, vs. morphine, fentanyl, sufentanil, and oxymorphone, 79

Calcium entry blockers, with local anesthetics, cardiovascular effects of, 95
Cancer pain, subarachnoid midazolam for, 329
Carbon dioxide, end tidal concentrations of, in ophthalmologic surgery, measurement of (letter), 189
Cardiac arrhythmias, drug-induced. *See* Cardiotoxicity
Cardiotoxicity, bupivacaine
  digoxin enhancement of, 272
  drug interactions and (letter), 116
  with and without lidocaine, 89
  rodent model for, 223
  treatment of (letter), 120
Cardiovascular effects, of local anesthetics, with calcium entry blockers, 95
Catheter
  micro-bore, for continuous spinal anesthesia (letter), 62
  32-gauge, for continuous spinal anesthesia, 150
Cervical pain, epidural steroid injections for (letter), 246
Cesarean delivery. *See also* Obstetric anesthesia
  analgesia after, opioids for, patient evaluations and costs of, 141
  bupivacaine for
    infused volume and spread of, 130
    subarachnoid morphine with, 137
  epidural anesthesia for
    chloroprocaine, by intermittent bolus vs. continuous infusion, 154
    morphine, nalbuphine pretreatment for, 84
    opioids for, comparison of, 79
    temperature monitoring for, 322
  morphine analgesia after, by single injection vs. continuous infusion, 232
Children, postoperative analgesia in, parascalene injection technique for, 20
Chloroprocaine
  continuous infusion vs. intermittent bolus, for cesarean delivery, 154
  in epidural anesthesia, back pain after, 199
  onset time of, with and without fentanyl, 228
Chronic pain
  inguinal block for, interabdominis approach to, 72
  after methysergide, 337
Clamp, drape, as alternative to pinprick testing (letter), 350
Computed tomography, in superior hypogastric plexus block, 286

Depo-Medrol, Upjohn's reformulation of (letters), 300, 301
Diamorphine
  continuous infusion, for postoperative analgesia, 253
  in vitro nerve conduction effects of, 204
Digoxin, bupivacaine toxicity and, 272
Doppler ultrasound, in sciatic nerve block, 282
Drape clamp, as alternative to pinprick testing (letter), 350
Drip method, for epidural space identification, 236, (letter) 299
Drug interactions, bupivacaine and (letter), 116

Education. *See* Training
Elderly, midazolam sedation in, flumazenil reversal of, 247
Electrical sensory thresholds, with subarachnoid lidocaine vs. combined subarachnoid lidocaine and epidural bupivacaine, 262
End tidal carbon dioxide concentrations, in ophthalmologic surgery, measurement of (letter), 189
Epidural abscess, early diagnosis of, 57
Epidural analgesia
  morphine, vs. continuous lumbar plexus block, after open knee surgery, 34
  postoperative, morphine and fentanyl for, 214
Epidural anesthesia. *See also* Spinal anesthesia
  bupivacaine
    epinephrine effects on, 303
    with intravenous vs. epidural sufentanil, ventilatory function after, 65
    with subarachnoid lidocaine, sensory thresholds and, 262
  chloroprocaine, back pain after, 199
  in early pregnancy, Horner's syndrome and, 242
  etidocaine, somatosensory evoked potentials and, 38

intravascular epinephrine test dose for, blood pressure as marker for, 292
long-term morphine, in terminal cancer patients, 209
low-dose thoracic, hemodynamic effects of, 318
obstetric
continuous infusion chloroprocaine vs. intermittent bolus chloroprocaine/bupivacaine, 154
five opioids compared for, 79
lumbar, initiation of in knee-chest position, 240
morphine
hypothermic effects of, 325
nalbuphine pretreatment for, 84
temperature monitoring for, 322
subarachnoid, long-term, in terminal cancer patients, 209
two-person technique for, 285
Epidural space, location of
combined hanging drop-loss of resistance technique for (letter), 299
by drip method, 236
drip method for, 236, (letter) 299
loss of resistance to air method for (letter), 117
Oxford epidural space detector for, 339
two-person technique for, 285
Epidural-spinal anesthesia, special needle for (letter), 348
Epinephrine
effects of on epidural ropivacaine and bupivacaine, 303
interpleural, vs. bupivacaine, hemodynamic and ventilatory effects of, 257
intravascular injection of, in epidural test dose, blood pressure as marker of, 292
Episensor, for detection of interpleural space, 112
Etidocaine, epidural, somatosensory evoked potentials and, 38

Fentanyl
bupivacaine and chloroprocaine onset time and, 228
epidural
with morphine, for postoperative analgesia, 214
obstetric, vs. morphine, sufentanil, buprenorphine, and oxymorphone, 79
for postcesarean analgesia, patient evaluation and costs of, 141
in vitro nerve conduction effects of, 204
Flumazenil, in reversal of midazolam sedation, in elderly, 247

Groin pain, chronic, inguinal block for, interabdominis approach to, 72

Hand, myoclonus of, after ipsilateral stellate ganglion block (letter), 186
Hanging drop technique, for epidural space location, 236
with loss of resistance to air method, 299
Headache, post dural puncture
continuous spinal anesthesia and, 107
after lumbar sympathetic block, 288
Hemodynamic effects
of interpleural bupivacaine vs. epinephrine, 257
of low-dose thoracic epidural anesthesia, 318
Horner's syndrome, after epidural block in early pregnancy, 242
Hypertension, tourniquet, prevention of, 191
Hypogastric plexus block, single-needle, with computed tomographic guidance, 286
Hypotension, during spinal anesthesia, 101
Hypothermia, in parturients undergoing spinal anesthesia with morphine, 325

Ilioinguinal pain syndrome, inguinal block for, interabdominis approach for, 72
Inguinal block, interabdominis approach to, for chronic pain, 72
Interabdominis approach, for inguinal block, for chronic groin pain, 72
Intercostal nerve block, for minor breast surgery, 23
Intercostal space, anesthetic spread in, 13
Interpleural analgesia, vs. intrapleural analgesia (letter), 299
Interpleural bupivacaine
distribution of, 43
vs. epinephrine, hemodynamic and ventilatory effects of, 257
Interpleural space, location of, electronic device for, 112
Intrapleural analgesia, vs. interpleural analgesia (letter), 299
Intraspinal opioids, for postcesarean analgesia, patient evaluation and costs of, 141
Ischemic monomelic neuropathy, after methysergide, 337

Journal articles
structured abstracts for, 341
uniform requirements for, 181

Knee-chest position, initiation of lumbar epidural obstetric anesthesia in, 240
Knee surgery, open, postoperative analgesia for, continuous lumbar plexus block vs. epidural morphine for, 34

Labor and delivery. *See* Cesarean delivery; Obstetric anesthesia
Leg block
lumbar plexus, vs. epidural morphine, for post-knee surgery analgesia, 34
sciatic
Doppler ultrasound in, 282
nerve stimulator in, 278
Lidocaine
bupivacaine toxicity and, in piglets, 89
with calcium entry blockers, cardiovascular effects of, 95
epidural obstetric, butorphanol augmentation of, 265
intravenous
for laser-induced pain, 28
thermoregulation and, 218
for postcesarean analgesia, by single injection vs. continuous infusion, 232
in spinal anesthesia, failure of, incidence and causes of, 48
subarachnoid, with and without epidural bupivacaine, sensory threshold and, 262
ventilatory effects of, 7
Local anesthesia. *See also* Regional anesthesia; specific agents
long-duration, with lecithin-coated methoxyflurane microdroplets
human skin studies of, 173
rat skin studies of, 164
Local anesthetics
with calcium entry blockers, cardiovascular effects of, 95
intercostal spread of, 13
subarachnoid spread of, factors affecting, 1
ventilatory effects of, 7
Loss of resistance to air technique, for epidural space location (letter), 117
Lumbar epidural anesthesia, initiation of in knee-chest position, 240
Lumbar pain, epidural steroid injections for (letter), 246
Lumbar plexus block, continuous, vs. epidural morphine, for analgesia after open knee surgery, 34
Lumbar sympathetic block, post dural puncture headache after, 288

Manuscripts, biomedical
structured abstracts for, 341
uniform requirements for, 181
Meperidine
for postcesarean analgesia, patient evaluations and costs of, 141
subarachnoid, for labor analgesia, 309
in vitro nerve conduction effects of, 204
Mepivacaine, ventilatory effects of, 7
Methoxyflurane, lecithin-coated microdroplet, for long-duration local anesthesia
human skin studies of, 173
rat skin studies of, 164
Methylprednisolone acetate suspension, without benzyl alcohol (letter), 301
Methysergide, chronic pain after, 337
Midazolam sedation, flumazenil reversal of, in elderly, 247
Morphine
epidural
vs. continuous lumbar plexus block, for analgesia after open knee surgery, 34

with fentanyl, for postoperative analgesia, 214
obstetric
vs. fentanyl, sufentanil, buprenorphine, and oxymorphone, 79
nalbuphine pretreatment for, 84
for postcesarean analgesia, patient evaluation and costs of, 141
pruritus after, propofol for (letter), 245
spinal obstetric, hypothermic action of, 325
subarachnoid
in adolescents with severe scoliosis and impaired pulmonary function, 333
long-term epidural, in terminal cancer patients, 209
Myoclonus, of hand and arm, after ipsilateral stellate ganglion block (letter), 186

Nalbuphine pretreatment, for epidural morphine, in cesarean delivery, 84
Nasal prongs, in measurement of end tidal carbon dioxide concentrations, in ophthalmologic surgery (letter), 189
Needle
for spinal-epidural anesthesia (letter), 348
23-gauge Atkinson retrobulbar, for brachial plexus block (letter), 119
Nerve block
brachial plexus
half ring injection for (letter), 63
23-gauge Atkinson retrobulbar needle for (letter), 119
hypogastric plexus, single-needle, with computed tomographic guidance, 286
lumbar plexus, continuous, vs. epidural morphine, for analgesia after open knee surgery, 34
lumbar sympathetic, post dural puncture headache after, 288
popliteal sciatic, nerve stimulator for, 278
sciatic
Doppler ultrasound in, 282
nerve stimulator in, 278
stellate ganglion, ipsilateral, myoclonus of hand and arm after (letter), 186
Nerve conduction, in vitro effects of fentanyl, meperidine and diamorphine on, 204
Nerve stimulator
in popliteal sciatic nerve block, 278
in teaching of regional anesthesia techniques (letter), 188
Neurotoxicity
bupivacaine
digoxin enhancement of, 272
with and without lidocaine, 89
rodent model for, 223
methysergide, 337

Obstetric anesthesia
epidural
continuous infusion chloroprocaine vs. intermittent bolus chloroprocaine/bupivacaine, 154
five opioids compared for, 79
morphine
nalbuphine pretreatment for, 84
by single injection vs. continuous infusion, 232
lumbar, initiation of in knee-chest position, 240
spinal
bupivacaine for
infused volume and spread of, 130
subarachnoid morphine with, 137
continuous-infusion with 32-gauge catheter, 150
morphine, hypothermic effects of, 325
subarachnoid meperidine for, 309
subarachnoid spread of, vertebral column height and, 17
Ophthalmologic surgery, end tidal carbon dioxide concentrations in, measurement of (letter), 189
Opioids
in epidural obstetric analgesia, comparison of, 79
for postcesarean analgesia, patient evaluation and costs of, 141
Oxford epidural space detector, 339
Oxymorphone, epidural obstetric, vs. morphine, fentanyl, sufentanil, and buprenorphine, 79

Pain
back, after chloroprocaine epidural anesthesia, 199
cervical and lumbar, epidural steroid injections for (letter), 246
chronic
after methysergide, 337
subarachnoid midazolam for, 329
tourniquet
primate model for, 195
tourniquet width, pressure and location and, 314
Parascalene injection technique, for postoperative analgesia, in children, 20
Patient-controlled analgesia, postcesarean, patient evaluation and costs of, 141
Percutaneous renal procedures, anesthesia for, 296
Peripheral nerve stimulator, in popliteal sciatic nerve block, 278
Pinprick testing, alternatives to (letter), 350
Popliteal sciatic nerve block, nerve stimulator for, 278
Post dural puncture headache
continuous spinal anesthesia and, 107
after lumbar sympathetic block, 288
Postoperative analgesia
diamorphine continuous infusion for, 253
epidural morphine and fentanyl for, 214
morphine, by single injection vs. continuous infusion, 232
opioids for, patient evaluation and costs of, 141
parascalene injection technique for, in children, 20
Pregnancy. *See also* Cesarean delivery; Obstetric anesthesia
early, epidural block in, Horner's syndrome and, 242
Propofol, for morphine-induced pruritus (letter), 245
Pruritus, morphine-induced, propofol for (letter), 245
Pulmonary function, in severe scoliosis, subarachnoid analgesia in, 333

Reflex sympathetic dystrophy, lumbar sympathetic block for, post dural headache after, 288
Regional anesthesia. *See also* Local anesthesia; Local anesthetics
techniques of, nerve stimulator in training for (letter), 188
Renal procedures, percutaneous, anesthesia for, 296
Ropivacaine, epidural, epinephrine effects on, 303

Sciatic nerve block
Doppler ultrasound in, 282
nerve stimulator in, 278
Scoliosis, severe, subarachnoid analgesia in, 333
Sensory testing, as alternative to pinprick testing (letter), 350
Sensory thresholds, with subarachnoid lidocaine vs. combined subarachnoid lidocaine and epidural bupivacaine, 262
Shivering, after intravenous lidocaine, 218
Somatosensory evoked potentials, epidural etidocaine and, 38
Spinal anesthesia. *See also* Epidural anesthesia; Subarachnoid anesthesia
complications during, 101
continuous
with hyperbaric bupivacaine, dose-response analysis of, 52
micro-bore catheter for (letter), 62
post dural puncture headache and, 107
failure of, incidence and causes of, 48
obstetric
bupivacaine
infused volume and spread of, 130
subarachnoid morphine with, 137
continuous infusion with 32-gauge catheter, 150
Spinal column length, subarachnoid anesthetic spread and, 17
Spinal epidural abscess, early diagnosis of, 57
Spinal-epidural anesthesia, special needle for (letter), 348
Spinal headache
continuous spinal anesthesia and, 107
after lumbar sympathetic block, 288
Stellate ganglion block, ipsilateral, myoclonus of hand and arm after (letter), 186
Steroids, epidural injection of, for cervical and lumbar pain (letter), 246

Structured abstracts, for journal articles, 341
Subarachnoid anesthesia. *See also* Spinal anesthesia
  in adolescents with severe scoliosis and impaired pulmonary function, 333
  lidocaine, with and without epidural bupivacaine, sensory thresholds and, 262
  midazolam, for cancer pain, 329
  morphine, long-term, in terminal cancer patients, 209
  obstetric
    meperidine, 309
    morphine, hypothermic effects of, 325
  spread of
    factors affecting, 1
    vertebral column height and, 17
Sufentanil
  epidural obstetric, vs. morphine, fentanyl, buprenorphine, and oxymorphone, 79
  intravenous vs. epidural, in bupivacaine epidural anesthesia, ventilatory function after, 65

Temperature. *See also* Hypothermia
  after intravenous lidocaine, 218
  monitoring of, during epidural anesthesia, in cesarean delivery, 322
  in parturients undergoing spinal anesthesia with morphine, 325
Template bleeding time, training anesthesia personnel to perform, 161
Thermoregulation. *See* Temperature
Thoracic epidural anesthesia, low-dose, hemodynamic effects of, 318
Thrombelastography, 59
Tomography, computed, in superior hypogastric plexus block, 286
Tourniquet hypertension, prevention of, 191
Tourniquet pain
  primate model for, 195
  tourniquet width, pressure and location and, 314
Toxicity. *See* Cardiotoxicity; Neurotoxicity
Training
  in bleeding time methods, 161
  in regional anesthesia techniques, nerve stimulator for (letter), 188
Tremor, after intravenous lidocaine, 218

Ultrasound, Doppler, in sciatic nerve block, 282
Uniform requirements for manuscripts submitted to biomedical journals, 181
Upjohn Company, reformulation of Depo-Medrol by (letters), 300, 301
Upper extremity
  myoclonus of, after ipsilateral stellate ganglion block (letter), 186
  tourniquet pain in, 314

Vaginal delivery, anesthesia for. *See* Obstetric anesthesia
Ventilation
  after epidural bupivacaine, with intravenous vs. epidural sufentanil, 65
  after interpleural bupivacaine vs. epinephrine, 257
  local anesthetic effects of, 7
Vertebral column height, subarachnoid spread of spinal anesthesia and, 17
